

AHMED MOHAMMED ELHASSAN AHMED

CIVIL ENGINEER

Trabzon, Türkiye | +90 531 974 9136 | a.mohammedcivileng@gmail.com

Nationality: Sudanese

PROFESSIONAL SUMMARY

Civil Engineering graduate (B.Sc., 2026) from Karadeniz Technical University with hands on experience in structural design, seismic analysis (SAP2000, ETABS), and sustainable building design. Completed an Erasmus+ engineering internship in Romania and a site internship in Türkiye. Graduation thesis on next generation sustainable school campus design. Trilingual in Arabic, English (IELTS 6.0), and Turkish (C1 certified), with strong technical documentation and digital modeling skills. Seeking a graduate civil/structural engineering role.

WORK EXPERIENCE

Civil Engineering Intern — Universitatea Politehnica din Timișoara (Erasmus+)

07/2025 – 09/2025

Timișoara, Romania

- Completed an Erasmus+ traineeship in civil engineering at one of Romania's leading technical universities.
- Worked on structural engineering tasks in an international, English speaking academic environment.
- Collaborated with faculty and international students, strengthening cross cultural engineering communication.

Civil Engineering Intern — Fen Mühendislik

08/2024 – 09/2024

Trabzon, Türkiye

- Supported site and office engineering activities, including quantity surveying and technical documentation.
- Assisted with CAD drafting and preparation of engineering calculation sheets and reports.
- Gained practical exposure to Turkish construction practice and building code requirements.

EDUCATION

Bachelor of Science in Civil Engineering — Karadeniz Technical University

09/2022 – 06/2026 (Graduated)

Trabzon, Türkiye | GPA: 3.19 / 4.00

- Thesis: Next Generation Sustainable School Campus Design — green campus master planning, energy efficient design strategies, and eco friendly infrastructure.
- Structural design and analysis: seismic load calculations and finite element analysis using ETABS and SAP2000.
- Digital modeling and CAD drafting: campus plan layouts in AutoCAD and 3D architectural modeling in Revit.
- Technical documentation: calculation models in Excel, engineering reports in Word, and project presentations in PowerPoint.

TECHNICAL SKILLS

Structural Analysis: SAP2000, ETABS, seismic load calculation, finite element analysis, TBDY 2018 compliance

Design and Modeling: AutoCAD, Autodesk Revit, 3D architectural drawing

Engineering Practice: quantity surveying, technical reporting, visual inspection, and quality control

Software and Web: Microsoft Excel, Word, PowerPoint, HTML, CSS, JavaScript, Adobe Photoshop, Canva, Google Drive

LANGUAGES

Arabic: Native

Turkish: C1 (Proficient) — [View C1 Certificate](#)

English: IELTS Band 6.0 — [View IELTS Certificate](#)

CONFERENCES AND SEMINARS

4th International Civil Engineering and Architecture Conference

05/2025

Trabzon, Türkiye

Digital Construction Summit

02/2025

Trabzon, Türkiye

VOLUNTEERING AND LEADERSHIP

Management Team Member — GENÇ İMO, Karadeniz Technical University	01/2022 – 11/2024
Media Officer — Sudanese Students' Union in Trabzon	11/2023 – 06/2024
Volunteer — Turkish Red Crescent (Kızılay)	02/2022 – 08/2022
Volunteer — Civil Engineering Students Association (CESS), University of Khartoum	2021
